Preliminary Population and Housing Unit Counts

This report is based on preliminary counts of population and housing units as compiled in the 1980 census district offices. The series consists of 56 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 56 for Puerto Rico, Guam, Virgin Islands, and American Samoa. Preliminary counts for the Northern Mariana Islands and the remainder of the Trust Territory of the Pacific Islands are not part of this series of reports. These counts will be made available in a separate press release issued for each area.

As of April 1, 1980, the population of the State was 688,217, according to a preliminary count of the returns of the 1980 census. This figure represents an increase of 21,960, or 3.3 percent, from the 666,257 inhabitants enumerated in the 1970 census.

The preliminary count of housing units in the State as of April 1, 1980, was 276,287. This figure, which includes both occupied and vacant housing units, represents an increase of 50,870, or 22.6 percent, from the 225,417 units enumerated in the 1970 census.

This report presents preliminary 1980 census population and housing unit counts for the State, counties, county subdivisions, incorporated places, standard metropolitan statistical areas (SMSA's), and congressional districts.

For SMSA's which have component parts in another State(s), data shown in this report relate only to this State's portion. For the remainder of the SMSA data, see the appropriate State(s) report.

These preliminary figures will be superseded by the final counts to be shown in Advance Reports, series PHC80-V, which will be issued within the next few months. The final counts are subject to further processing and review and may differ from the preliminary figures.

An outline of the publication and computer tape program for the 1980 Census of Population and Housing can be obtained free of charge from the Data User Services Division, Bureau of the Census, Washington, D.C. 20233.

Symbols used in tables. A dash "–" represents zero. Three dots "..." means not applicable, and "(NA)" means not available. The prefix "r" indicates that the count has been revised since publication of 1970 census reports.

Table 4. **Population and Housing Unit Counts for Congressional Districts: 1980 and 1970**

[Counts relate to congressional districts as delineated for the 96th Congress. For meaning of symbols, see text]

The State Congressional Districts	Population		Housing units	
	1980 (preliminary)	1970[1]	1980 (preliminary)	1970[1]
The State	688 217	'666 257	276 287	'225 417
First	347 593	333 107	140 302	112 627
Second	340 624	333 150	135 985	112 880

[1] Population counts for congressional districts are based on 1970 census complete-count data; housing unit counts are based on 1970 census sample data. These counts may not add to State totals because of post-1970 census corrections which were not assigned by congressional district and also because of sampling variability for housing unit counts.

Because of late changes in the data, the population and housing unit counts for 1980 shown in the tables of this report for the following areas are superseded by the numbers below. Changes to these areas may affect the totals for the higher levels of geography in which they are located.

Wilson township (Tripp County)	108	35

Data on housing vacancies and housing characteristics

U.S. Department of Commerce
BUREAU OF THE CENSUS

CURRENT DATA ON HOUSING

HOUSING VACANCIES (SERIES H-111):

Current statistics on housing vacancies, based on a scientifically selected sample. This series of four quarterly reports and one annual report provide rental vacancy rates and homeowner vacancy rates for the United States, each of the four regions, and inside and outside standard metropolitan statistical areas. The statistics for the current quarter are compared with data for the same quarter in the preceding year. Percent distributions are presented for rental vacancies and homeowner vacancies by the following housing characteristics:

Number of rooms
Number of bedrooms
Number of housing units in the structure
Duration of vacancy
Plumbing facilities
Monthly rent and sale price asked
Year structure built

Also shown are percent distributions of all vacant housing units by year-round and seasonal status, figures on occupancy and vacancy rates based on the total housing inventory, and the home ownership rate. The annual report, in addition to the above, presents percent distributions of housing characteristics for both renter- and owner-occupied units.

HOUSING CHARACTERISTICS (H-121):

This series of reports is published on an irregular schedule. Individual reports present data for the United States, regions, or local areas on one or more selected housing characteristics. (Publications in this series include 15 reports on television ownership, 1 report on second homes and 1 report on housing units by plumbing facilities and condition, and a special study on housing characteristics classified by the 1959 income of occupants.) Stocks of these reports are exhausted. Photo copies only are available. For information write to: Housing Division, Bureau of the Census, Washington, D.C. 20233

HOW TO ORDER

Both series of current housing reports described in this announcement are available from the Superintendent of Documents in a combined subscription for $5 per year (individual copies vary in price). Use the order form furnished below.

RELATED REPORTS

The Bureau of the Census also issues several series of monthly reports on the construction industry. Subjects covered include housing starts, construction activity, building permits, and housing sales. An announcement and order form covering these reports is available free of charge upon request to: Subscriber Services Section (Publications), Bureau of the Census, Washington, D.C. 20233
